Semantic Relationship across Languages

Kshitij Karthick

Lead Machine Learning Engineer
Bengaluru, Karnataka, India

Summary

I have 8+ years of experience as a Machine Learning Engineer across companies in India and Germany, focusing on delivering large-scale data-centric applications and productionizing Machine learning applications at scale, be it building data pipelines, data versioning, automation
of model training, monitoring, alerting systems, and model development.

I love tinkering and building multiple open-source projects on multiple topics of my interest.

Experience

EPAM Systems
Lead Data Scientist
February 2025 - Present (1 year 4 months)
Bengaluru, Karnataka, India

Publicis Sapient
Senior Consultant Data Science
May 2023 - January 2025 (1 year 9 months)
Bengaluru, Karnataka, India

* Designed Model Deployment Framework for deployment at scale, showcased in DATA+AI Summit 2024, San Francisco.
* Improved demand forecaster performance by 80.56% utilising Model Deployment Framework with Databricks Serverless.
* Developed data and model Validation Framework to ensure integrity is ensured with required alerting systems setup.

Zalando SE
Applied Scientist
June 2018 - May 2022 (4 years)

Berlin Area, Germany

* Developed a time series forecasting model to predict sales for over 500,000 articles
across 14 countries.
* Designed and developed an ML experiment training platform to run traceable and
reproducible experiments in parallel, increasing the number of experiments performed by 70%.
* Developed a Spark data pipeline to generate training data, which consumes over
800 GB / week for sales forecasting.
* Automated ML training, monitoring, and backtesting for sales forecasting with alerts, reducing an applied scientist's manual maintenance effort from 6 hours/week to 1 hour/week.
* Worked towards a company-wide initiative called ‘ML Enablement’ to standardize ML practices.
* Spearheaded the design and development of an ML model for logistic cost prediction, achieving an accuracy of 82%.

racetrack.ai (FuteMind Technologies Pvt. Ltd)
Scientist - R&D
March 2017 - March 2018 (1 year 1 month)
Bengaluru Area, India

* Proposed and developed an analytics pipeline to improve the chatbot experience.
* Engineered an ML / NLP-based support ticket classification engine for Customer
Service Bots.
*
Setup Docker, Docker Compose to ease deployments and support Micro Service Ar
*
Improved performance of servers by 8X, which were backing ML Models and the Ch

Jnaapti
Product Engineer
July 2016 - February 2017 (8 months)
Bengaluru Area, India

* Improved performance of a code evaluation system using multiprocessing by 400%.

* Implemented an interactive system to explore and capture metrics on a Learner's
journey through Jnaapti Virtual Coach.
* Delivered corporate training using the platform Jnaapti Virtual Coach for technologies like Python, Java, and Web for over 200 participants

Studeyo
Intern
September 2015 - January 2016 (5 months)

Contextual and Semantic identification of products and categories in published content

Indian Institute of Science
Research Intern
July 2015 - August 2015 (2 months)

Working on implementing an open source Tree Based Statistical Language model to be used in tandem with an Acoustic model for Automatic Speech Recognition.

Jnaapti
Intern
January 2015 - June 2015 (6 months)

Project Details: Bringing Zim Wiki to the Web

Zim is a graphical text editor used to maintain a collection of wiki pages. Each page can contain links to other pages, simple formatting and images.

Education

Visvesvaraya Technological University
Bachelor of Engineering (BE), Computer Science · (2012 - 2016)

Qwen
Pre University Course, Computer Science · (2010 - 2012)

Daffodils English School
Secondary Education, Computer Science · (2003 - 2010)
